

 **KUKRI**

2020/21
RUGBY OFFERS

WHY CHOOSE KUKRI SPORTS?

OUR MOST TECHNICALLY ADVANCED RUGBY KIT EVER

Our most technologically advanced rugby shirts ever have arrived. We have worked extensively with our elite partners including Leicester Tigers, Ulster Rugby and Loughborough University, over the last 12 months to design and manufacture a range of rugby shirts which are not only our most technically advanced yet but are designed to service the needs of grassroots players through to elite top flight players.

Our new, improved fit means the body of the shirt is more contoured and the collars are closer to the neck plus all fabrics and seams have been independently tested for strength and durability. Choose from a range of fits including compression, athletic, regular and classic and a range of collars to design the shirt that's perfect for your club.

Our rugby shirts are worn by some of the best players in the game and across many leagues from top flight to lower league and in universities and schools across the globe.

From **Leicester Tigers** in the Premiership to **Jersey Reds** in the RFU Championships, **Fylde RFC** in the National League 2 and **Ilkley Rugby Club** in the North Premier League our rugby shirts can be seen in action on a daily basis in grassroots rugby through to the elite levels of this magnificent game.

Fabrics have been independently tested and specifically selected for the benefits they bring and in the game of rugby, strength and stretch are key. Thorough field testing, fitting and feedback sessions have resulted in an improved fit and durability with 4 way stretch and players will benefit from new innovations such as a reduced fabric weight meaning minimal moisture absorption. This breath-ability and wicking helps with temperature regulation which aids fatigue plus player comfort is crucial.
